ALEXANDRA
WOOD

YOUR CAPSULE WARDROBE CHECKLIST

All you need in your wardrobe

Here at Alexandra Wood we like to be as helpful as we can when it comes to transforming or guiding your style.

These are just some of the questions we find it useful to ask yourself when it comes to your wardrobe needs:

- Where do you spend most of your time?
- What does your current wardrobe consist of?
- Would you like to make a change to the way you dress or add to what you currently have?

We have created your wardrobe checklist so you can see what items you might be missing...

BASIC WHITE T SHIRTS

These will ideally have a bit of stretch and be a slim cut. T-shirts are a layering essential and when they're smart, can be worn a multitude of ways.

SMART JEANS

No rips, no fading, just one flat colour with a slim, flattering cut.

CHINOS

Every man needs a good pair of chinos in a high quality fabric and a slim cut.

SMART TROUSERS

As men get stuck in the habit of wearing jeans or chinos, these are an ideal choice for a smart, evening out.

Choose between flannel or a pure wool for elegance.

BUSINESS SHIRTS

Have 5-10 smart business shirts in your wardrobe ranging from plain white, blues and stripes.

CASUAL SHIRTS

Choose something with a bit of fun, when you're off duty, this is when you can let your personality shine a bit more. Unbutton your shirt collar and relax. Think print or texture.

SUITS

Every man needs at least one fabulous suit in their wardrobe. The quality of the fabric, cut and construction must be high to make a good impression.

Navy, petrol blues, charcoals always work well.

OVERCOAT

A well fitting overcoat really can make an outfit. Wear casually or smart, they look great when cut well. Opt for a single breasted classic look for everyday or a double breasted, textured style to mix things up a little.

SHORT COAT

Different styles suit different people, so getting the fit and look right is important. A smart, high quality shorter coat is ideal for an easy, every day throw on with a sweater.

SPORTS JACKET

A sports jacket is an every day classic. Often used when a dress down policy applies or you're having a smart lunch on the weekend. Mix and match with chinos or trousers and this is your staple wardrobe item, so make it good.

KNITWEAR

The best knitwear to own is merino wool sweaters. The fabric breathes with your body and works when you're either hot or cold. As it's notoriously lightweight it's also very comfortable. Think roll necks, crew necks and v-necks.

SHOES

You need to be ready for all occasions, so shoes are important. Don't let your outfit down.

- Smart lace ups in deep brown, black or burgundy*
- Smart pull on or lace up boots*
- Smart trainers*
- Loafers*

ACCESSORIES

This is where your personality can really shine.

- Pocket squares*
- Woollen scarves*
- Silk ties for work*
- Wool ties or textured for smart/casual*
- Belts*
- Sunglasses*
- Bags*
